Yogeshwar Nagpure

Java Full Stack Developer

+91-9764988350 yogeshwarnagpure0@gmail.com linkedin.com/in/yogesh-nagpure github.com/yogesh-nagpure

Summary

Motivated **Java Full Stack Developer** with a strong foundation in developing web applications using **Java, Spring Boot, Hibernate, JDBC, MySQL, HTML, CSS, JavaScript, and ReactJS**. Experienced in designing RESTful applications, database integration, and implementing MVC architecture. Strong understanding of **Object-Oriented Programming (OOP), SDLC, Agile methodologies, debugging, and problem solving**. Hands-on experience through academic and real-world projects with the ability to quickly learn new technologies and deliver reliable software solutions.

Education

B.E. Computer Engineering 2018 – 2021
Rashtrasant Tukadoji Maharaj Nagpur University
CGPA: 8.11

Diploma in Computer Technology
Maharashtra State Board of Technical Education
Percentage: 63.94%

Technical Skills

Programming Languages: Java, J2EE, JDBC
Frameworks: Spring Boot, Hibernate
Frontend: HTML, CSS, JavaScript, ReactJS, Bootstrap, Tailwind CSS
Database: MySQL
Tools: Git, Odoo Ticketing System
Concepts: OOP, REST API, MVC Architecture, SDLC, Agile, Scrum, Debugging, Technical Analysis

Experience

Technical Support Engineer — Worth Technology Mar 2026 – Present
- Worked with software-enabled hardware devices and performed system configuration and troubleshooting.
- Diagnosed technical issues, analyzed root causes, and provided timely resolutions.
- Collaborated with internal teams for issue tracking, documentation, and service reporting.
- Strengthened analytical, debugging, and problem-solving skills while supporting production environments.
- Gained practical experience in understanding client requirements and delivering technical solutions.

Network Support Engineer — Infotek Software & System Pvt Ltd Jan 2025 – Mar 2026
- Provided technical support for enterprise applications and network-enabled systems.
- Performed issue analysis, debugging, and troubleshooting in live production environments.
- Managed support tickets using Odoo and documented Root Cause Analysis (RCA).
- Worked closely with cross-functional teams to ensure timely issue resolution.
- Developed strong analytical thinking, communication, and software troubleshooting skills.

Projects

Library Management System
- Developed a desktop-based application using **Java, JDBC, and MySQL**.
- Implemented modules for book management, student records, issue/return tracking, and fine calculation.
- Designed a user-friendly interface with efficient database connectivity.
- Applied Object-Oriented Programming concepts for modular and maintainable code.

Hotel Management System
- Developed a hotel management application using **Java, JDBC, and MySQL**.
- Implemented room booking, customer management, billing, and database operations.
- Used JDBC for CRUD operations and efficient data management.
- Focused on clean code structure and database integration.

Certifications

- **Full Stack Java Developer Certification** – Montore Solutions 2025
- Completed training in **Java, Spring Boot, Hibernate, JDBC, REST APIs, MySQL, HTML, CSS, JavaScript, ReactJS, Bootstrap, and Tailwind CSS**.
- Built end-to-end web applications using MVC architecture and gained hands-on experience with real-world development projects.
